2018 NMRFAM Structure Determination Workshop

Introductory level workshop on determining a protein structure by NMR!

Hands-on sessions led by experienced NMRFAM staff. June 3–8th

NMR spectral analysis software supplied for installation on your laptop.

Become an NMRFAM user and solve your own structures!

The final day (6/8) will consist of an optional workshop on "Haddock" presented by its developer, Professor Alexandre Bonvin from the University of Utrecht, The Netherlands.

More information at: http://www.nmrfam.wisc.edu

Last day to register: 05/28/2018 (limited enrollment).

Don't miss out on this popular workshop!
